Travel Counsellor

Description

Define shortly the high-level idea of the project and your main motivation behind it.

Travel Counsellor provides a convenient way to plan a trip.
By combining Google maps, TripAdvisor and OpenWeather we provide the user with all the information they desire: such as itinerary, landmarks and weather forecast.

Identified services

Enumerate the high-level services that you plan to develop or access (already existing services on the Web).

- Google maps
- TripAdvisor
- OpenWeather

Technologies

Which technologies, programming languages and IDEs do you prefer?

HTTP, CSS, JS, PHP, MariaDB / SQL
